

KICK-OFF 2-3 MARCH 2016

With the kick-off meeting held from 2 to 3 March 2016 in Brussels, Belgium, the Publeneef project was successfully launched. During the meeting the project workflow, main tasks, timing and project outputs have been discussed.

ABOUT PUBLENEEF

PUBLENEEF is a 3-year (2016-2019) project funded by European Union's Horizon 2020 programme, aiming to assist EU Member States in implementing effective and efficient sustainable energy policies (with the focus on energy efficiency). The project helps to empower policy-makers to make use of best practices and policy processes implemented in other Member States at national, regional and local levels.

The Publeneef results will be:

- to identify the needs from national, regional and local authorities for the implementation of EE policies,
- to collect the best practices and tools for overcoming these needs and replicate them to various MS, regions and municipal authorities,
- to develop roadmaps and enhance the process of successful implementation of policies,
- to build and strengthen existing networks of policy makers enabling the knowledge exchange from national to regional to local level in EE policy.

PUBLENEEF EVENTS

In order to support the various Publeneef tasks project partners will participate and organize events targeting energy agencies, public authorities at local, regional and national levels.

Please follow these events [HERE](#).

Please feel welcome to visit Publeneef project website and social media where you will be regularly updated with project outputs.
